Here is some can language you can use concerning FIFRA Section 10(g) and the release of data. Please feel free to make any edits as needed.

To receive registrant submitted data/studies, Section 10(g) of Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) requires you to sign an Affirmation of Non-Multinational Status form. The form affirms the person requesting the pesticide data, does not work for or represent a pesticide producer. Please go to <https://www.epa.gov/foia/affirmation-non-multinational-status> for a copy of the affirmation form and an explanation of FIFRA Section 10(g). Section 10(g) also requires we notify the data owner to whom we released the data to. We will send you a list of all the studies submitted for each product, by COB this week. The studies are proprietary and cannot be posted or released for public access. Please keep in mind that the studies are proprietary and cannot be posted or released for public access. For explanation of FIFRA 10(g) and a copy of the Affirmation go to <https://www.epa.gov/foia/affirmation-non-multinational-status>.

You can submit a Freedom of Information Act (FOIA) request for the DERs/reviews for the data. You can submit your FOIA request via FOIAONLINE by going to <https://foiaonline.gov/foiaonline/action/public/home>.

The Agency has released 168 DERs/Reviews on Aldicarb for previously submitted FOIA requests, which are available by going to https://iaspub.epa.gov/apex/pesticides/f?p=CHEMICALSEARCH:7:::NO:1,3,31,7,12,25:P3_XCHEMICAL_ID:1052.

If you feel you are entitled to receive, you can discuss this matter with our FOIA Staff. You can contact the Earl Ingram, the Branch Chief for OPP's FOIA activities at ingram.earl@epa.gov or on 703-305-5456.

Subject: Quick Reminder

Earl:

This is just a friendly reminder. per your suggestion this morning, to provide Debra and me with information on why the agency doesn't provide registrant-submitted studies to outside requestors. Many thanks!

Best,

Marion J.
